* “incest” does not necessarily mean molested by a family member, but by someone the child trusted, e.g., family friends, teacher, sports coach, professor, nurse, doctor, therapist, social worker, priest, pastor, nun, landlord ,to name a few, who has power over a child causing emotional, mental, spiritual and/or physical damage to the child. It is an issue of betrayal of trust. We put full responsibility on the initiator for whatever took place.

*ISA is a spiritual program based on the 12 Steps and 12 Traditions of Alcoholics Anonymous. Incest Survivors Anonymous was founded July 15, 1980, Long Beach, CA
